

R E S U M E

Rullyansyah Oetama

I'm a Web Developer, have 3 years of experience working as a web developer that is easy to use by the user in both Interface and Experience (UI/UX). Understand project management methods including agile, scrum & waterfall. Ability to work in a team, being able to communicate well with the team in carrying out the work to give efficiency to each deadline already set. Leading several projects making applications at some immigration offices, Integrate Front-End interfaces with REST APIs, with a preference for those built with Next.js and Typescript.

Work & Experiences

PT. Asiatek Teknologi Indonesia,

Front-end, placed at Bank Mandiri (February 2023 - present)

As a front-end at the independent bank, me and the team were assigned to create a system monitoring application using *ReactJs/NextJs* technology. Some of my tasks as a front-end:

Develop and implement user interfaces using *Typescript, ReactJs/NextJs*. Collaborate with application's users, team UI/UX, and backend developers *to understand project requirements and translate them into technical specifications*, Design and implement *REST APIs* for seamless communication between frontend and backend components, *Troubleshoot and debug issues* to ensure smooth operation of the applications And some other tasks that I can explain in the interview.
